

Hailer

Dispatch a Ride for Customers From Your Service Drive

Provide Convenient Rides for Service Customers With CDK Hailer

Hailer integrates ridesharing technology with your CDK DMS and CDK Service to help reduce transportation costs and improve the overall customer experience. Through our integration with Uber and Lyft and the revolutionary Fortellis platform, you can dispatch rides directly from your Service application to offer customers an easy and cost-effective alternative to traditional temporary vehicle solutions.

Reduce Costs With Integrated Ridesharing Technology

- 1 Provide a ride for customers from your CDK DMS and CDK Service, and increase customer satisfaction, repair order throughput and profitability
- 2 Open Hailer through your Service application — no additional username and password required
- 3 Submit OEM warranty claims with ease
- 4 Automatically capture ride estimate costs and final charges on the repair order
- 5 Choose maximum ride fares and distance limits for rides to and from your dealership

18% offer loaner vehicles*

59% of dealers offer no customer transportation*

19% offer shuttle transportation*
